

Acne Control Soap

Acne

Acne is a skin condition that causes your skin to produce excess oil. Acne occurs when the pores become plugged with dead skin cells, oil, dirt, or bacteria. This typically manifests as blackheads, whiteheads, and pimples. Although less common, clogged pores can also cause severe types of acne such as nodules, and cystic acne.

Our Treatment

Marie Originals Acne Control Soap is a gentle, earth-derived treatment to effectively address acne. The soap contains white willow bark for its natural salicylic acid content to unclog pores, control acne, and help prevent future breakouts. Working in synergy with white willow, bentonite clay is used for its ability to remove impurities and detoxify the skin. This treatment also contains noni, a potent herb to soothe and nourish the skin. Organic oat bran is another beneficial ingredient that gently exfoliates and clears away dead skin cells to reveal a healthy, radiant complexion.

SKIN CARE TIPS FOR ACNE-PRONE SKIN

Exfoliate

Exfoliating regularly can help smooth your skin, reduce breakouts, and remove dead skin cells and excess oil that clog the pores.

Steer clear of culprits

Everyday products such as scented laundry detergents, fabric softeners, and perfumes can clog pores, irritate your skin, and lead to acne breakouts on your face and body.

So long, sweet tooth

A high-sugar diet can worsen inflammation throughout the body; this can adversely affect skin issues, including acne. Decrease your sugar intake—your skin will thank you!

Take an oatmeal bath

Oatmeal can absorb excess oil, help remove dead skin cells, and aid in calming acne. Taking an oatmeal bath soothes, softens, and cleanses your skin with the added benefit of relaxing your mind and body.

Acne Control Soap

Easy to use

- 1) Wet skin with **lukewarm** water.
- 2) **Gently** exfoliate affected areas with the coarse side (top) of the soap bar.
**Those with extra-sensitive or dry skin should skip step 2*
- 3) Using the smooth side (bottom) of the soap bar, work up a nice lather.
- 4) Let lather sit on skin for 2 minutes, then rinse thoroughly.

For Acne that has already developed: Work up a lather a second time and allow it to dry on the skin. Use twice daily, or as needed. For inflamed acne (weeping, crusting, oozing), only apply the smooth side of the soap bar to skin.

Product Information

Active Ingredients.....Purpose

Salix Alba extract 1C (White Willow).....acne

Based on traditional methods of homeopathic healing. These ingredients may have not yet been clinically tested by the FDA or HPUS for these uses.

Uses

Cleanses and penetrates pores to help control acne.

Warnings

Do not use if you have a sensitivity to the components of the formula, or on broken skin. Using another topical Acne treatment together with or immediately after using this soap increases the chance of drying and irritation. Use only one treatment unless directed otherwise by a doctor. Stop use and ask your doctor if symptoms persist, worsen, or if new symptoms occur after 3 days of use. For topical use only. In case of ingestion, seek medical help. Avoid contact with eyes. If contact occurs, rinse with water.

Inactive Ingredients
