

Itch & Rash Soap

The Condition

An itch is an irritating sensation that can really get “under your skin.” Itchy skin, also known as Pruritus, can be caused by a number of things, from Chickenpox to skin irritants and allergens, and may accompany a rash, redness, swelling, and/or other skin maladies. The unpleasant sensation of itchy skin is often caused by the body’s release of a chemical known as Histamine.

Our Treatment

Marie Originals Itch Relief Soap is a gentle, all-natural treatment designed to provide soothing relief of itching resulting from insect bites, and other skin irritations. Containing a synergistic blend of herbs, and a moisturizing, oil infused glycerin base, this soap eliminates the itch and gives your skin a nourishing boost. Featuring noni for its soothing properties, and sassafras for its natural antihistamine action, this treatment instantly reduces redness, and halts the itch. Also containing bentonite clay for its detoxifying and skin-calming effects, the soap removes irritants and soothes the skin.

TIPS FOR COPING WITH ITCHY SKIN

Ice, ice, ice!

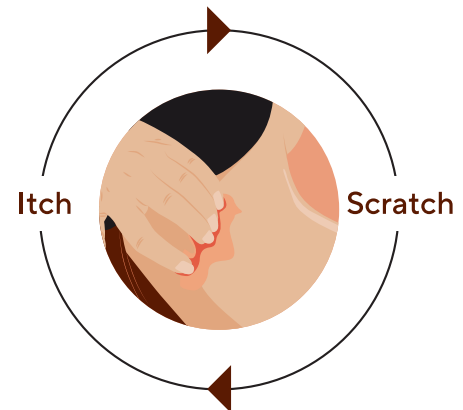

Place an ice cube on the area of skin that is itchy. Ice can help reduce swelling and inflammation and chill that irritating itch.

Take a nice tepid shower

Lukewarm water is the most skin-soothing temperature to help relieve itchy skin.

Resist the urge to scratch

Scratching can actually cause more skin inflammation and—you guessed it—more itching. While the temporary relief might be tempting, keep in mind that the word “tempting” shares the same prefix as: temporary. Don’t succumb to scratching; it’s not worth it.

Itch & Rash Soap

Easy to use

- 1) Wet skin with **warm** water.
- 2) **Gently** exfoliate affected areas with the coarse side (top) of the soap bar.
**Those with extra-sensitive or dry skin should skip step 2*
- 3) Using the smooth side (bottom) of the soap bar, create a thick lather and rub into skin.
- 4) Let lather sit on skin for approximately 3 minutes, then rinse thoroughly.

For long-lasting relief: Work up a lather a second time and allow to dry on skin. Use twice daily or as needed until the rash subsides.

Leaping bunny certified 

 Grindelia known for its calming properties on delicate or reactive skin	 Bentonite Clay used to help purify and refresh the skin's surface	 Sassafras used to help ease skin discomfort	 Organic Oat helps soothe and nourish the skin

Product Information

Active Ingredients.....	Purpose
Sassafras Albidum 1C (Sassafras Root Bark).....	itch
Grindelia Camporum 1C (Gumweed).....	itch

Based on traditional methods of homeopathic healing. These ingredients may have not yet been clinically tested by the FDA or HPUS for these uses.

Uses

To aid in the relief of itching and irritation from insect bites and other minor skin rashes.

Warnings

For topical use only. Do not use if you have a sensitivity to any of the ingredients, or on broken skin. Stop use and ask a doctor if symptoms worsen or if new symptoms occur after 3 days. **Consult a doctor before use if:** You are concerned the rash may be a result of an allergic reaction, are pregnant or breastfeeding, or the rash is large or severe. Avoid contact with eyes. If contact occurs, rinse thoroughly with water. In case of ingestion, call a poison control center immediately.

Other information

Store at room temperature. This bar contains no preservatives and may sweat in humid conditions. This is normal and does not affect its potency. This remedy and the information provided here are not intended to substitute or replace advice from a qualified healthcare professional. Do not use if plastic wrap around the bar is open or missing. These statements have not been evaluated by the FDA. This remedy is not intended to diagnose, treat, cure, or prevent any disease. Consult your physician before using if you have any health concerns.

Inactive Ingredients

Bentonite Clay, Coconut Oil, Noni Fruit Powder, Oat Bran, Oat Protein, Palm Oil, Purified Water, Safflower Oil, Saponifying Oils, Sassafras Root Bark, Vegetable Glycerin, White Willow Extract.
